SUMMARY

Full Stack Developer with 2+ years of experience building production-grade web applications using Next.js, React.js, Node.js, and NestJS. Experienced in authentication systems (JWT, SAML, OAuth), REST API design, database optimization (PostgreSQL, MariaDB), and cloud deployment. Delivered scalable features used by real users in CRM and SaaS products.

SKILLS

Languages: JavaScript (ES6+), TypeScript
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Ant Design
State Management: Redux Toolkit, Context API, Zustand
Backend: NestJS, Express.js, REST APIs
Databases: PostgreSQL, MySQL, MariaDB, MongoDB
Authentication & Security: JWT, OAuth 2.0, SAML 2.0, RBAC
Tools & Cloud: Git, GitHub, AWS

WORK EXPERIENCE

Cloud Analogy CRM SPECIALIST LIMITED

Noida

Full Stack Developer

02/2024-Present

- Built and maintained production-grade full-stack applications using **Next.js, React.js, Node.js, NestJS, and MongoDB** for CRM and SaaS platforms used by internal and external users.
- Designed and implemented **RESTful APIs** using NestJS and Express.js, enabling seamless communication between frontend and backend services.
- Implemented **JWT-based authentication and Role-Based Access Control (RBAC)** to secure APIs for multiple user roles and permission levels.
- Optimized **SQL queries and API response handling**, improving overall application performance and reducing API response time by approximately 30%.

Key Projects (Part of Cloud Analogy)

Continuous Professional Development (CPD) Smart

Tech Stack: Next.js, NestJS, MariaDB, Sequelize

- Developed a **SaaS platform** to manage member submissions, activity tracking, and compliance workflows.
- Designed **SAML 2.0 based Single Sign-On (SSO)** between CPD Portal and CPD Smart, enabling secure authentication across multiple systems.
- Integrated **Twilio APIs** to manage SMS communication workflows, including automated fetch and deletion of messages.
- Designed and maintained **relational database schemas** using MariaDB and Sequelize to support scalable data handling and reporting.

Meta Manager

Tech Stack: React.js, Express.js, Node.js, PostgreSQL

- Automated **Instagram workflows** including instant replies and scheduled post publishing, improving user engagement and response rates.
- Managed and optimized **Meta Ads & Lead forms**, enabling efficient campaign monitoring and automated lead retrieval for improved conversion.
- Implemented secure **OAuth-based login** for Facebook and Instagram, ensuring secure login and seamless cross-platform access for users.

PROJECTS

Swiggy Clone (Food Delivery Platform)

04/2023-12/2023

Tech Stack: React.js / Next.js, Node.js, Express.js, SQL (MySQL), Payment Gateway, JWT

- Developed a **full-stack food delivery platform** replicating core Swiggy workflows, including **user onboarding, restaurant listing, cart, and order management**.
- Implemented **user and admin role-based authentication and authorization** using **JWT**, securing APIs and access to sensitive operations.
- Built a complete **order management system** supporting order creation, status tracking (placed, preparing, dispatched, delivered), and order history.
- Integrated **payment gateway functionality** to support secure online payments and order confirmation workflows.

ACHIEVEMENTS

- Awarded the **PerfoMaven Award** at Cloud Analogy for strong performance, ownership, and consistent delivery of high-quality features.
- **C / C++ Programming Certification** – Coding Spoon

EDUCATION

B. Tech | Computer Science & Engineering
Lovely Professional University

Phagwara, IN
