SUMMARY

Full Stack Developer with 2.5+ years of experience building production-grade web applications using Next.js, React.js, Node.js, and NestJS. Experienced in authentication systems (JWT, SAML, OAuth), REST API design, database optimization (PostgreSQL, MariaDB), and cloud deployment. Delivered scalable features used by real users in SaaS products.

SKILLS

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, React Native, Next.js, HTML5, CSS3, Tailwind CSS, Ant Design, TanStack Query (React Query)

State Management: Redux Toolkit, Context API, Zustand

Backend: NestJS, Node.js, Express.js, REST APIs, WebSockets

Databases & Caching: PostgreSQL, MySQL, MariaDB, MongoDB, Redis

Authentication & Security: JWT, OAuth 2.0, SAML 2.0, RBAC

Tools & Cloud: Git, GitHub, AWS

WORK EXPERIENCE

Software Engineer | Griphic (SKETS) — Delhi

03/2026 – Present

- Optimized application performance and code quality by implementing Redis caching to reduce database calls, enabling direct Amazon S3 uploads using IndexedDB, introducing centralized frontend error handling, and refactoring backend repositories to remove duplicate logic and improve maintainability.

Cerebrus — Next.js, NestJS, PostgreSQL, TypeORM

- Implemented second-camera functionality for interview proctoring using Redis and WebSockets, enabling real-time secondary video monitoring.
- Set up CI/CD pipelines and deployed the service on AWS ECS, streamlining releases and improving deployment reliability.

Full Stack Developer | Cloud Analogy — Noida

02/2024 – 03/2026

- Built and maintained production-grade full-stack SaaS applications using Next.js, React.js, Node.js, NestJS, MongoDB, and SQL, developing scalable frontend features and RESTful APIs while ensuring seamless communication between client and server.
- Implemented secure and high-performance backend solutions by integrating JWT authentication, Role-Based Access Control (RBAC), and optimized SQL queries, reducing API response times by approximately 30%.

Continuous Professional Development (CPD) Smart — Next.js, NestJS, MariaDB, Sequelize

- Developed a SaaS platform to manage member submissions, activity tracking, and compliance workflows.
- Designed SAML-based Single Sign-On (SSO) between CPD Portal and CPD Smart, enabling secure authentication across multiple systems, and integrated Twilio APIs to manage SMS communication workflows, including automated fetch and deletion of messages.

Meta Manager — React.js, Express.js, Node.js, PostgreSQL

- Automated Instagram workflows including instant replies and scheduled post publishing, improving user engagement and response rates; managed and optimized Meta Ads & Lead forms, enabling efficient campaign monitoring and automated lead retrieval.
- Implemented secure OAuth-based login for Facebook and Instagram, ensuring secure login and seamless cross-platform access for users.

ACHIEVEMENTS

- Awarded the PerfoMaven Award at Cloud Analogy for strong performance, ownership, and consistent delivery of high-quality features.

EDUCATION

B.Tech, Computer Science & Engineering

Lovely Professional University

Phagwara, India

07/2020 – 07/2024
